Couples' Advance '23

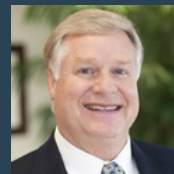

Love is not just words, it is action. True love begins with a decision that produces behaviors which results in positive emotions. Love is more than a phrase, it involves practical steps. Too often we do not feel like "loving" our spouses, so the actions and expressions fade. But we made that sacred commitment to marry, and that means treating one another properly is more important than feelings.

LOVE WORKS! It goes above and beyond the call of duty to sacrificially love our spouses. And this requires action. 1 John 3:18 says, "My little children, let us not love in word, neither in tongue; but in deed and in truth." We must put in the work to love our spouses well. Come join us at the Couples' Advance... and put in the work! Learn practical helps for your relationship, but also take the time away to invest in your marriage union.
