ONWARD, FORWARD, UPWARD

Forward movement is the sole remedy for a standstill. Progress is the way to get beyond a plateau. Passivity has led to an impasse in American Christianity, and Spirit-birthing pursuit is the only way out of this stalemate.

Bounds said, "God shapes the world through prayer." And our praying must be "reshaped" before it can "shape the world." Heaven is waiting for a new generation of pioneers. We must move on from where we are to NEW LEVELS of understanding and experience in our Christian lives.
