PIGEON FORGE, TN

LEAVE. LEARN. LOVE.

In Genesis 2, God was very clear. Married couples are supposed to be so unified that they are considered "ONE". But in order to do this, it requires leaving things behind. In Genesis 2, He commands us to leave our families behind and begin a new one together. It also requires learning the other person, and loving them sacrificially. This thought in Genesis 2 is condensed into the phrase "cleave". Cleaving means to "cling to or to stay with". This action implies learning and faithfully loving one another. This is the pathway to true unity. The Couples' Advance is a perfect time to leave some things behind, learn more about one another, and grow in love for each other!
